

ABDULSAMAD KHAN

IT Support Engineer

Windows Server Infrastructure | Active Directory & Identity Management | Network & Security Operations

Riyadh, Saudi Arabia | +966 59 772 7483 | abdulsamad.k058@gmail.com | linkedin.com/in/abdulsamad-it

PROFILE SUMMARY

IBM SkillsBuild-certified IT professional with over 5 years of experience administering Windows Server environments, Active Directory, DNS, DHCP, and Group Policy, along with VMware virtualization, PowerShell scripting, and troubleshooting. Resolved IT support tickets within SLA timelines across three different organizations, proactively troubleshooting servers and end-user systems to minimize downtime. Skilled in maintaining both on-premises and virtualized environments, with a strong record of delivering reliable first, second, and third-line technical support.

TECHNICAL SKILLS

Server & Infrastructure: Windows Server 2019/2022, Active Directory, DNS, DHCP, Group Policy (GPO), OU Management, File & Print Services, NTFS Permissions, Patch Management, VMware vSphere, Windows Server Hyper-V & Virtualization

Networking & Security: TCP/IP, LAN/WAN, Routers & Switches, Remote Desktop (RDP), Firewall Monitoring, Network Configuration & Support, IT Documentation

Scripting & Automation: PowerShell, Batch Processing, System Performance Optimization, System Monitoring & Maintenance

Support & Operations: IT Ticketing Systems, Hardware Troubleshooting, Software Troubleshooting, Data Backup & Recovery, Windows 10/11, MS Office (Word, Excel, PowerPoint)

PROFESSIONAL EXPERIENCE

System Administrator

Feb 2024 – April 2026

Al Masar Tech, Saudi Arabia

- Installed, configured, and maintained Windows Server environments for 50+ users, sustaining 99.9% server uptime.
- Managed Active Directory, DNS, DHCP, and Group Policy (GPO), improving the efficiency of new-account provisioning.
- Performed routine server health checks, Windows updates, and patch management, keeping systems secure and minimizing vulnerabilities.
- Resolved IT support tickets related to Windows Server, user accounts, hardware, software, printers, and network connectivity while consistently meeting SLA timelines.
- Managed virtual machines using VMware vSphere for server testing, configuration, snapshots, and administration, reducing test-environment setup time.
- Supported LAN infrastructure including routers, switches, IP addressing, and wireless access points, minimizing connectivity downtime.
- Maintained antivirus software, endpoint protection, software licenses, and IT documentation to enhance overall infrastructure security.

System Administrator

Nov 2021 – Aug 2023

Sky Marketing, Islamabad, Pakistan

- Monitored Windows servers and performed routine maintenance, deploying software updates to maintain stable system performance.
- Managed Active Directory user accounts, password resets, shared folders, and permissions for 100+ users, reducing average request turnaround time.
- Maintained DNS, DHCP, and basic Group Policy (GPO) with minimal service disruption.
- Performed regular data backups and verified successful backup completion, achieving a consistent 100% recovery success rate.
- Installed and configured Windows operating systems and business applications, supporting smooth onboarding of new devices.
- Resolved IT support tickets related to hardware, software, printers, and network issues within SLA timelines.
- Maintained technical documentation and asset records to ensure operational accuracy and compliance.

Desktop Support Engineer

Sep 2019 – Oct 2021

Iqra University, Islamabad, Pakistan

- Provided desktop support for students and staff across campus, handling a high volume of daily support requests.
- Installed and configured Windows desktops, laptops, printers, and software for new and existing users.
- Resolved IT support tickets within SLA timelines, maintaining consistent user satisfaction.
- Troubleshoot hardware, software, printers, and network connectivity issues, reducing repeat incidents.
- Performed preventive maintenance, Windows updates, and routine backup tasks, lowering unplanned downtime.
- Maintained IT inventory and support documentation for the department.

CERTIFICATIONS

IBM SkillsBuild Certifications — Issued June 2026:

- Cloud Computing & Virtualization
- Network Protocol & Configuration
- Software & Operating Systems
- IT Security & Compliance
- Hardware Components & Troubleshooting

Microsoft Learn Training Certifications — Completed July 2026:

- Windows Server Hyper-V and Virtualization

EDUCATION

Bachelor of Science in Software Engineering

Iqra University, Islamabad, Pakistan | 2015 – 2019

Intermediate in Pre-Engineering

Indus Group of Colleges, Islamabad, Pakistan | 2012 – 2015
